All trades, transactions and contracts are subject to the Rules, Bye-Laws and Regulations of the Exchange and shall be deemed to be and shall take effect as wholly made, entered into and to be performed for the purpose of giving effect to the provisions of the Rules, Bye - Laws and Regulations of the Exchange.

4. 5. **Provisions in case of Default:** In the event of a default of a Member on his own account, the Constituent's money shall not be utilized to meet the Member's liabilities. In such cases, the Constituent's positions shall be either transferred to another solvent member or closed-out as per the provisions of the Rules, Byelaws and Regulations of the Exchange. The loss, if any, caused to the Constituent because of such action would be recoverable by the Constituent from the Member. In the event of failure of the Constituent to fulfill his obligations to the Member, the Exchange or the Clearing House, the Constituent's position may be closed out and the money, if any, of the Constituent available with the Member or with any other Member or the Exchange, may be adjusted against the Constituent's liabilities / obligations.

The Professional Clearing Member (PCM), if opted by the Constituent to settle his trades, shall confirm all trades executed as PCM trades on the day the order is executed. In the event of nonconfirmation and /or rejection of the trade by such PCM, the Constituent shall be liable to pay forth with the applicable margin as enunciated by the Member on the same day.

6. **Collateral:** The Constituent shall pay to the Member such amount as an initial deposit (collateral / initial deposit) as decided by the Member, and in such form as may be approved by the Member up-front, on or before creating a position in any contract. The Member shall reserve the mark up margin (commonly referred to as 'haircut margin') from the collateral, which shall not be utilized for margin requirements. The collateral reduced by markup / haircut margin shall thereafter be utilized against creating and maintaining the position by the Constituent. The mark up margin shall be subject to the change from time to time as may be decided by the Member and / or the exchange.

7. **Utilization by Member of the Initial Deposit by the Constituent:** The initial deposit so paid shall be first utilized towards initial margin requirement as calculated by the Exchange from time to time and the balance if any, after such adjustment against initial margin payments, will be available for adjustment against daily margin requirement, Mark to Market (MTM) loss on open positions created by the Constituent. The Constituent shall forward in advance a written request to the Member for adjustment MTM loss against the cash portion of the collateral.

8. **Payment of Margins:** The daily margin requirement can be adjusted against the collateral maintained by the Constituent with the Member. The Member shall accept from the Constituent further order, which, if executed, will add to the open positions, only if the balance collateral is adequate to meet the initial margin on such new positions. If the balance collateral is not adequate for adjusting the daily margin requirement, the Constituent shall deposit the additional margins as required by the Member. The Constituent shall also be obliged to pay the shortfall of the daily margin, if any, on the immediate succeeding business day when the Member raises such additional margin requirement. The Constituent shall not be permitted to create any new open positions, until receipt of such additional margin.

If the Constituent defaults in paying the daily margin, the Member shall be entitled to liquidate / close out all or any of the Constituent's positions, without prejudice to the Member's right to refer the matter to arbitration. Any and all losses and financial charges on account of such liquidation / closing out shall be charged to and borne by the Constituent. 9 Receipts & Payment of Premium MTM: The Member will block up-front from the collateral maintained with it the MTM loss on open positions. The Member shall accept from the Constituent further order, which, if executed, will add to the open positions, only if the balance collateral is sufficient to meet the requisite margin on such new positions. The Constituent shall be obliged to pay the amount of MTM loss blocked against the collateral on the immediate succeeding business day. The Member will adjust the Constituent's liability towards MTM loss against the initial deposit maintained in cash by the Constituent, provided a written request is given by the Constituent to the Member to this effect. If the Constituent defaults in paying in the MTM loss, the Member shall be entitled to liquidate/ close out all or any of the Constituent's positions, without prejudice to the Member's right to refer the matter to arbitration. Any and all losses and financial charges on account of such liquidation / closing out shall be charged to and borne by the Constituent.

On a written request from the Constituent, MTM profit (on derivative positions) shall be adjusted towards the collateral maintained with the Member. These adjustments pertaining to MTM profit shall be treated as additional collateral brought in by the Constituent and the Member shall reserve the mark up margin from this collateral, which shall not be utilized for margin requirements. The total collateral (inclusive of mark to market inflows) reduced by markup shall thereafter be utilized against creating and maintaining the position by the Constituent.

10. If the complete recovery is not possible then, the Member shall be entitled to liquidate / close out all or any of the Constituent's other outstanding positions, without prejudice to the Member's right to recover the damage from the Constituent. Any and all losses and financial charges on account of such liquidation / closing out shall be charged to and borne by the Constituent.

11. The Constituent acknowledges that all contracts culminating in delivery(which are not squared off and information for giving and taking delivery is given by the Constituents) would be transactions for purchase and sales between the Constituents inter-se and the Constituents would be personally liable to each other though the contract and relationships are governed and regulated by the Bye Laws, Rules and Regulations of the Exchange.

12. The Exchange may cancel a trade suo-moto without giving any reason thereof. In the event of such cancellation, MEMBER shall be entitled to cancel relative contract(s) with CONSTITUENT.

13. All trades, transactions and contracts are subject to the Rules and Regulations of the Exchange and shall be deemed to be and shall take effect as wholly made, entered into and to be performed in the city of Mumbai and the parties to such trade shall be deemed to have submitted to the jurisdiction of the Courts in Mumbai for the purpose of giving effect to the provisions of the Rules and Regulations of the Exchange.

Trade Obligations:

The Constituent shall accept all trades executed, resulting from the orders placed with the Member, irrespective of the fact that the order is executed partially or in full, on the Exchange.

In the event of non-confirmation of custodial trades by PCM for any reason whatsoever, all exchange-levied margins, MTM losses (on open position), will be borne by the Member for the unconfirmed trades. In such case, the Constituent shall pay to the Member, all margins levied by the Exchange on the unconfirmed trades. In addition to the above, the Member shall have an option to call for collateral from the Constituent, to meet the subsequent daily margin obligation / MTM losses on the unconfirmed trades. The Constituent shall be obliged to pay the daily margin, MTM on the immediate succeeding business day, of the day when the Member raises such margin requirement. The Member shall not permit the Constituent to create any new open positions, until receipt of such additional margin requirement.

If the Constituent defaults in paying the daily margin, MTM, if any, the Member shall be entitled to liquidate / close out all or any of the Constituent's positions, without prejudice to the Member's right to refer the matter to arbitration. Any

and all losses and financial charges on account of such liquidation / closing out shall be charged to and borne by the Constituent.

Deliveries:

The Constituent will be responsible for providing information for the purposes of giving / taking delivery against his Net Open Position along-with information necessary for giving / taking delivery within stipulated period as specified by the Exchange from time to time. Member shall submit the same to the Exchange.

The Exchange at the end of stipulated period shall match the information provided by the Member against Net Open Positions of the Constituent and shall confirm the Delivery / Receipt to be effected against Delivery information submitted by the Member

Constituent shall co-ordinate with the Member to ensure that all requirements for giving / taking delivery are fulfilled. Constituent shall also ensure to comply with all statutory requirements laid down regarding Sale / Purchase of goods including payment of taxes, local levies and other statutory / regulatory charges as prescribed under applicable laws from time to time.

Counter-party Constituent or any other
Member of the Exchange within stipulated period as specified by the Exchange from time to time.

31 ANNEXURE D - RISK DISCLOSURE DOCUMENT

(THIS DOCUMENT SHOULD BE READ BY EACH AND EVERY PROSPECTIVE CONSTITUENT BEFORE ENTERING INTO DERIVATIVES TRADING AND SHOULD BE READ IN CONJUNCTION WITH REGULATIONS OF NATIONAL COMMODITY & DERIVATIVES EXCHANGE (NCDEX))

NCDEX has not passed the merits of participating in this trading segment nor has NCDEX passed the adequacy or accuracy of this disclosure document. This brief statement does not disclose all of the risks and other significant aspects of trading. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. Risk of loss in trading in derivatives can be substantial. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances. Derivatives trading thus require not only the necessary financial resources but also the financial and emotional temperament. In case of any consequences or loss in the Futures segment, the Constituent shall be solely responsible for such loss and the Exchange shall not be responsible for the same and it will not be open for any client to take the plea that no adequate disclosure was made or he was not explained the full risk involved by the member. The client will be solely responsible for the consequences and no contract can be rescinded on that account.

RISKS INVOLVED IN TRADING IN DERIVATIVES CONTRACTS

Effect of "Leverage" or "Gearing"

The amount of margin is small relative to the value of the derivatives contract so the transactions are 'leveraged' or 'geared'.

Derivatives trading, which is conducted with a relatively small amount of margin, provides the possibility of great profit or loss in comparison with the principal investment amount. But transactions in derivatives carry a high degree of risk.

You should therefore completely understand the following statements before actually trading in derivatives and also trade with caution while taking into account one's circumstances, financial resources, etc. If the prices move against you, you may lose a part of or whole margin equivalent to the principal investment amount in a relatively short period of time. Moreover, the loss may exceed the original margin amount.

- I. Futures trading involves daily settlement of all positions. Every day the open positions are marked to market based on the Settlement price. If the settlement price has moved against you, you will be required to deposit the amount of loss (notional) resulting from such movement. This margin will have to be paid within a stipulated time frame, generally before commencement of trading next day.
- II. If you fail to deposit the additional margin by the deadline or if an outstanding debt occurs in your account, the broker/member may liquidate a part of or the whole position. In this case, you will be liable for any losses incurred due to such closeouts.
- III. Under certain market conditions, an investor may find it difficult or impossible to execute transactions. For example, this situation can occur due to factors such as illiquidity i.e. when there are insufficient bids or offers or suspension of trading due to price limit or circuit breakers etc.
- IV. In order to maintain market stability, the following steps may be adopted: changes in the margin rate, increases in the cash margin rate or others. These new measures may be applied to the existing open interests. In such conditions, you will be required to put up additional margins or reduce your positions.
- V. You must ask your broker to provide the full details of the derivatives contracts you plan to trade i.e. the contract specifications and the associated obligations.

Risk-reducing orders or strategies

The placing of certain orders (e.g., "stop-loss" orders, or "stop-limit" orders), which are intended to limit losses to certain amounts, may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" positions, may be as risky as taking simple "long" or "short" positions.

Suspension or restriction of trading and pricing relationships

Market conditions (e.g., illiquidity) and/or the operation of the rules of certain markets (e.g., the suspension of trading in any contract or contract month because of price limits or "circuit breakers") may increase the risk of loss due to inability to liquidate/offset positions.

Deposited cash and property

You should familiarize yourself with the protections accorded to the money or other property you deposit particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property that has been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall. In case of any dispute with the member, the same shall be subject to arbitration as per the byelaws/regulations of the Exchange.

Commission and other charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

Trading facilities

The Exchange offers electronic trading facilities, which are computer-based systems for order routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearinghouse and/or member firms. Such limits may vary; you should ask the firm with which you deal for details in this respect.

This document does not disclose all of the risks and other significant aspects involved in trading on a derivatives market. The Constituent should therefore study derivatives trading carefully before becoming involved in it.

I hereby acknowledge that I have received and understood this risk disclosure statement.
