Position Limits	Position limits for 'option on Futures' shall be clubbed with position limits of 'options in Goods' on the same underlying goods but shall remain separate from position limits of futures contracts on the same underlying. Numerical value for client level/member level limits in Options shall be twice of corresponding numbers applicable for Futures contracts. Guar Seed: 4,34,000 MT and 43,400 MT for member and client respectively.
Exercise of Options	European Options to be exercised only on the day of Expiration of the Options contracts
Mechanism of Exercise	a. All In the money (ITM) option contracts shall be exercised automatically, unless 'contrary instruction has been given by long position holders of such contracts for not doing so. b. All Out of the money (OTM) option contracts shall expire worthless.

	c. All exercised contracts within an option series shall be assigned to short positions in that series in a fair and non-preferential manner. In the event contrary instruction are given by ITM option position holders, the positions shall expire worthless.
Final Settlement Method	On exercise, Option position shall devolve into underlying Futures position as follows: • long call position shall devolve into long position in the underlying Futures contract • long put position shall devolve into short position in the underlying Futures contract • short call position shall devolve into short position in the underlying Futures contract • short put position shall devolve into long position in the underlying Futures contract All such devolved futures positions shall be opened at the strike price of the exercised options.
Initial Margin	NCCL shall adopt appropriate initial margin model and parameters that are risk-based and generate margin requirements sufficient to cover potential future exposure to participants/clients. The initial margin shall be imposed at the level of portfolio of individual client comprising of his positions in futures and options contracts on each commodity. Margins shall be adequate to cover atleast 99% VaR (Value at Risk) and Margin Period of Risk (MPOR) shall be at least four days. For buyer of the option, buy premium shall be charged as margins and blocked from the collaterals. On computation of settlement obligation at the end of day, the premium blocked shall be released and collected as pay-in as per process notified. NCCL shall fix prudent price scan range and volatility scan range based on the volatility in the price of the underlying commodity. Appropriate Short Option Minimum Margin (SOMM) shall be fixed.
Other Margins	• Extreme loss margin: NCCL shall levy appropriate Extreme loss margin as applicable.

	• Calendar spread charge: The calendar spread charge shall be calculated on the basis of delta of the portfolio of futures and options. A calendar spread charge of 25% on each leg of the positions shall be charged. • Mark to Market: NCCL shall mark to market the options positions by deducting/adding the current market value of options (positive for long options and negative for short options) times the number of long/short options in the portfolio from/to the margin requirement. Thus, mark to market gains and losses would not be settled in cash for options positions. • Pre expiry margin: Pre expiry margin will be charged on potential in the money long and short option positions. The pre expiry margin will be increased gradually every day beginning from the pre-determined number of days before the expiry of the contract as applicable. • Margining at client level: NCCL shall impose initial margins at the level of portfolio of individual client comprising of his positions in futures and options contracts on each commodity. • Other margins: Other margins like additional margins and special margins shall be applicable as and when they are levied by the Exchange/CC/Regulator.
